

EDON ALIU

FULL STACK DEVELOPER

<https://github.com/Edoni78> | edonaliu8@gmail.com | <https://www.linkedin.com/in/edon-aliu-78b086265/>

Full Stack Developer specialized in building scalable web applications using React and RESTful APIs. Strong background in backend architecture, database design, and writing clean, maintainable code. Experienced working in Agile teams to deliver reliable, high-performance solutions end to end.

EDUCATION

Bachelor of Computer Science and Engineering
UBT – Prishtine

Oct 2022 - Jun 2025

- Major in Computer Science and Engineering, specialized in Software Systems Engineering.
- Focused on software development, algorithms, databases, and modern web technologies

AREA OF EXPERTISE

- | | | | |
|--------------------|--------------------|------------------|----------------------------|
| • React Js | • ASP.NET Identity | • SQL | • CI/CD |
| • .NET | • REST APIs | • Supabase | • Custom CMS |
| • Entity Framework | • MySQL | • AI Integration | • Git & Linux Environments |

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer

Nov 2025 - Present

Vuca Light Interstellar — Erbil, Iraq (Remote)

- Led development of modern web applications using React and .NET, improving application performance and maintainability through scalable architecture and clean API design.
- Optimized RESTful services and database interactions (MySQL), enhancing data handling efficiency and overall system responsiveness.
- Implemented CMS functionality and admin dashboards, streamlining content management workflows and improving operational efficiency for internal teams.

Intern Frontend Developer

Sep 2023 - March 2024

OUTKOS – Prishtina, Kosovo

- Contributed to the development of React-based user interfaces, improving component structure and application performance.
- Collaborated in testing and feature implementation, ensuring alignment with project requirements.
- Supported REST API integration and frontend optimization within a real development environment.

PROJECTS

- **iKlinika** — Multi-tenant clinic internal operations web app: patient registration, visits (cases), vitals, medical reports, real-time updates, and PDF case reports.
 - **Stack:** .NET 8 Web API, EF Core, MySQL, ASP.NET Identity, JWT, SignalR, PuppeteerSharp; React, Axios, Tailwind CSS.
- **interks** — React + Supabase SPA for interview flashcards, spaced-style practice, and study notes with PDF export; Tailwind, TipTap, i18n.
- **Additional Projects Available Upon Request**
